

October 5, 2007

Dr. Racine has significantly change my life drastically, starting months ago beginning as soon as my second treatment.

I was a 24 yr. old female U.S. Army Veteran suffering from **chronic fatigue, fibromyalgia, stomach problems, headaches, backaches, mood problems** and every other symptom in the book stemmed from **endocrine problems** mostly due to my military service. I had spent upwards of \$10,000.00 trying to get well. Weekly holistic treatments, chiropractic back cracking, etc – only to afford me temporary relief from my life hindering pain. I could barely walk, I was severely **depressed**, and I could not have normal relationships due to my illnesses. I was referred to Dr. Racine by one of my holistic practitioners. It took me 3 months to finally make the call and had it not been for Joyce's faith in Dr. Racine I may have never made my first appointment.

Dr. Racine was so professional and knowledgeable it was quite easy for me to put my faith in him as well. I almost cried after my initial consultation because I knew in my gut I was going to get better. Maybe right away or maybe in a few months, but I was going to get well.

Get well I did. By my second treatment I could sit up straight without pain, my energy was better, and my stomach was much less testy. By a month after my initial appointment I would bounce into his practice smiling and feeling good. My mood significantly elevated, my stomach felt like a new stomach, and I could go to the gym. These among many other symptoms had been relieved. My quality of life had become better than it had in years.

Here I am 5 months later and I have lost weight because my metabolism has naturally sped up because everything is working properly. My **TMJ and jaw clenching** has significantly minimized. I can eat foods I could not tolerate for years because my stomach is now working properly. My back rarely bothers me. My immune system is better. Quite frankly I am living pain free and with energy. My self-esteem has shot through the roof. I feel younger than I had when I was younger. I no longer need holistic therapies. Dr. Racine's techniques were what I had needed all along.

I am a completely different person today and if you would have asked me six months ago if I thought I could feel this good I would have told you that you are out of your mind. I can't thank God, Dr. Racine or Joyce enough for what they have done for me.

THANK YOU- THANK YOU – THANK YOU

Thank you for saving my life- because before your treatments....I thought my life was over.

Love,

Jaime B. Collom
